

Surpass

Powering Assessment

Surpass technology can power your assessment program

Surpass is a best-in-class solution for all your assessment needs, with the flexibility to work with multiple vendors and partners.

“

“It’s critical for us to be able to deliver our exams directly to university medical schools and hospitals for the convenience of neurology programs. Surpass has provided us the flexibility to reach all of our candidates in a secure way.”

Lynne Shindoll - American Academy of Neurology

”

✓ Item Banking and Test Assembly

Developed in partnership with the National Board of Medical Examiners, the Surpass item banking software is a best-in-class solution for all certification bodies. From item writing and reviewing through to **standard setting**, the **SME management** functionality helps you track progress with your SMEs.

With our flexible Item Banking options, you can author items within Surpass, or **easily import and export** pre-existing items.

Create and validate your tests, ready for secure delivery either within the Surpass test delivery channel, or with your preferred delivery vendor(s).

NEW Assistive AI feature-set

Discover assistive AI item generation with Surpass Copilot

Learn how Surpass is using new AI-feature set, Copilot, to revolutionize the item authoring process, helping you create better test questions, faster, for less cost!

✓ Test Delivery

The Surpass test driver uses the very latest technologies to provide a highly scalable and highly accessible (**WCAG 2.1 AA conformant**) experience.

Choose from an array of test settings and options to fit to the specific needs of your exam program, and deliver using fixed forms or the Surpass **LOFT (Linear On the Fly Testing)** capability, which automatically minimizes the exposure of items across your item bank and ensures that no items are used too often.

✓ Scoring

Choose from automated scoring and re-scoring, or manual scoring with built-in quality controls. You can easily share detailed score reports with candidates where appropriate.

✓ Item Analysis

Access automated in-depth psychometric data about your items and tests at the touch of a button, or extract raw data, helping you to ensure your tests are reliable and valid.

✓ Results and Certification

Candidates' results are automatically calculated and available instantly to you or your customers, or can be sent via APIs to your preferred Certification Management solution.
