Discover why certification and licensure organizations love Surpass.

Our team will work with you every step of the way, from test development, through to delivery and analysis. We'll give you as much help as you need, but you will always stay in control.

People love Surpass because it gives them the flexibility they need to grow. It's the most intuitive and collaborative platform on the market for test development, delivery and reporting.

"All the features are designed to be intuitive. Without any formal training, an item author could go into Surpass and start creating items."

Jamie Saldutti - NBME

Build better tests with Surpass Test Development Services.

Let us help you build the right test, the first time, with a successful test development process.

As your test development partner, we will work alongside your team and can provide psychometric experts to help you build tests that measure the right knowledge, skills and abilities, and that yield valid, reliable, and fair results.

✔ Job task analysis & test specification

We will help you identify the competencies, knowledge and responsibilities that need to be assessed, so you can be sure you're measuring everything essential to success in a specific role.

✔ Subject Matter Expert (SME) recruitment

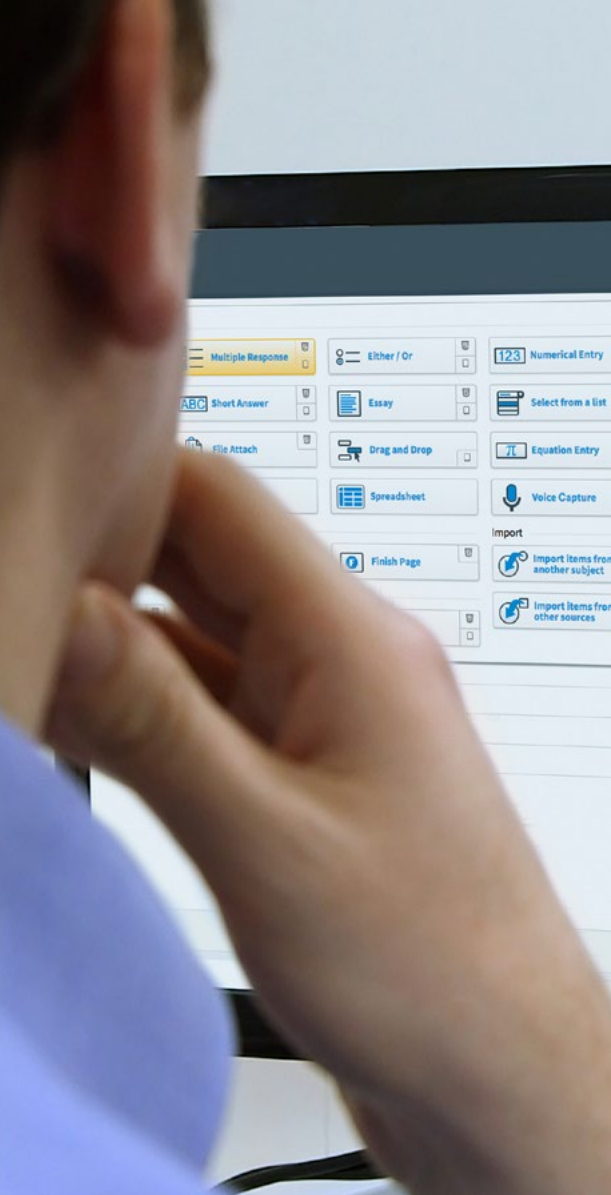

Finding the right team to author your items is an essential part of the process. Our team can help you, using both psychometric expertise and innovative technology.

✔ Item & test production

Our experts can work with you to design your exam blueprint and content, test form plan, test delivery frequency, test delivery models, and administration specification.

✔ Standard setting

By utilizing appropriate methodology for your testing program, our team of experts can provide you with a strong degree of confidence that test cut scores are properly calculated and validated.

With our technology powering your test development, you will remain in control of your items.

Surpass is the perfect collaborative working environment. You can manage item production with authoring tasks through face-to-face or remote item writing workshops. You'll also have access to an extensive range of question types including technology-enhanced items. Features like version compare allow you to track all changes, and item review voting means you can stay focused on the important tasks, saving you time and effort.

Items can be enhanced with high-fidelity images, videos, source material and simulations. Once constructed and validated, tests are instantly available for delivery. No hassle, no fuss.

“We wanted a system that would provide us with more access to our items; was easy for our item writers to use; and had the technological infrastructure to support alternative item types.”

Thom Banks, CEO, CIDQ

Deliver to every test taker, anywhere in the world.

✓ Global test center network

Deliver in our global, high-quality test center network, through your own center providers, or export tests for delivery through a third-party network.

✓ Secure online proctoring

Options include secure live test delivery with up to a 2:1 candidate:proctor ratio, and “record and review” using an innovative dual-camera platform.

✓ Secure BYOD delivery

Surpass supports BYOD delivery with an easy to install, secure, and resilient test driver for small or large-scale test delivery.

✓ Internet resilient lockdown test driver

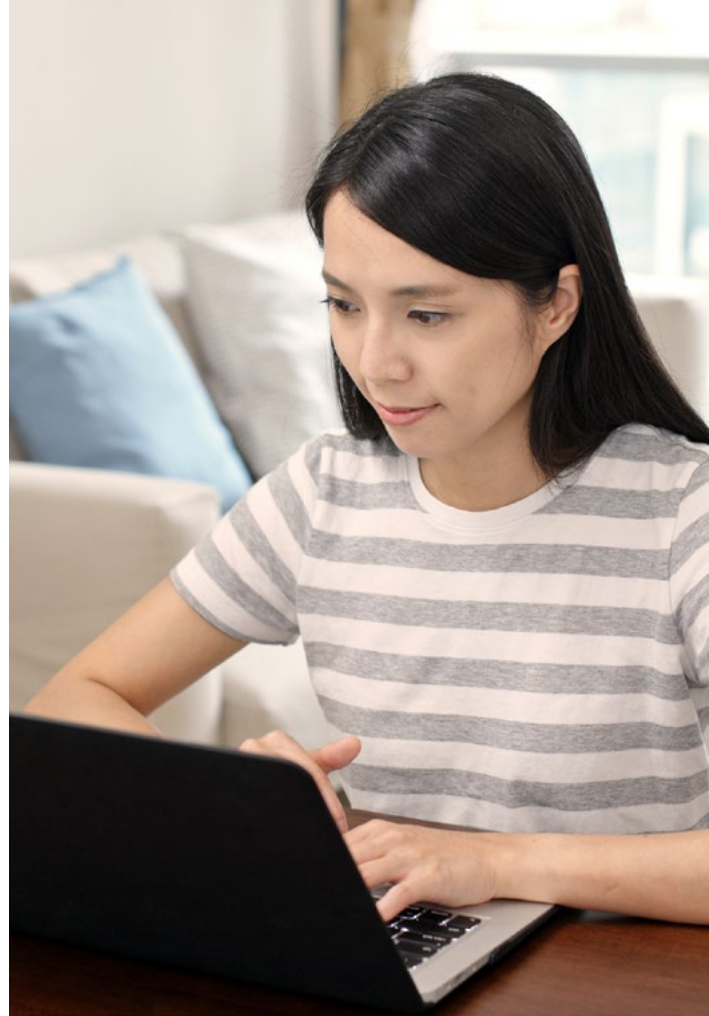

Use the resilient Surpass test driver with the confidence that candidates can sit their test without stress, even without a stable internet connection.

Add online proctoring to your delivery offering.

A Surpass online proctoring solution gives you everything you need to deliver tests securely in candidates' own homes and places of work.

Surpass Community members are delighted with how well online proctoring works for their assessments, including those with ANSI accredited testing programs. Options include:

- ✓ Live 2:1 candidate to proctor ratio
- ✓ Secure browser
- ✓ Candidate self-scheduling portal
- ✓ AI assistance for behaviour tracking
- ✓ Unique dual-camera 'record and review'
- ✓ 24/7 support

Deliver with confidence in our **secure global Test Center Network.**

Our Test Center Network is made up of over 250 audited, Surpass-ready centers worldwide, with the ability to source more locations should you need them. We utilize both independent and vendor-grouped centers to provide you with the highest-quality venues, with flexible capacity to suit you and your learners.

- ✓ Venues are top-quality and meet our high standards
- ✓ Venues can be booked by the day or the hour, depending on your requirements
- ✓ Continuous center support for technical and exam related enquiries, including full exam day support
- ✓ Access to on-demand test center bookings

Grow your program. Deliver online practice tests through your own branded portal.

With Surpass you can go the extra mile for learners by providing them with a practice test portal for self-schedule tests. This could be free or paid-for content with additional instant learning feedback.

- ✓ **Automatic feedback and results**
Auto-score items to provide learners with immediate test results and item-level feedback including links to learning resources.*
- ✓ **Optional candidate payment portal**
Add a payment portal for learners as a testing gateway to grow your revenue.*
- ✓ **Digital certification and micro-credentials**
Connect your assessment program with printed, digital or micro-credential providers.*
- ✓ **Customizable branded portal**
Give candidates the assurance of quality, with your brand on tests and the portal.
- ✓ **Immediate in-test help and item feedback**
Provide direct help to candidates with in-test help, hints, and item feedback.

Automate your scoring process for standard and technology-enhanced items.

With Surpass, automated scoring is about so much more than MCQs. Advanced scoring technology means that even technology-enhanced items (TEIs) can be auto-scored, reducing the burden on examiners and providing faster access to results.

Looking for AI scoring technology? You're in the right place. Surpass provides AI-powered scoring technology for essay response and subjective item types.

"We are so happy with the flow we identified in Surpass, which allows them [item writers and reviewers] to talk to each other in the program and accommodate each other."

Isbah Ali Farzan - NBCC

Items, tests, reports and results, all within your control.

We never stand between you and your data, we help you make the most of it.

Surpass provides you with all the psychometric data and tools you need to have confidence that the tests you're delivering are reliable, valid, fair and defensible. From candidate interaction logging to easy to read reports, we'll never stand between you and your data.

In addition to easily accessible in-product functionality, we can provide access to expert psychometricians who can help validate your processes and get the most from the data available.

✔ **Item and test-level analysis**

Generate a variety of out-of-the-box reports for both item and test-level analysis, giving you a clear picture of what's performing as expected, what may need revision, and much more.

✔ **Access to raw data**

Got in-house experts ready to analyze the data? Easily export comprehensive raw data compatible with all common statistical analysis applications, including SPSS.

✔ **Simpler Standard Setting**

Secure functionality within Surpass means your team have access to everything they need to discuss standard setting, wherever they are, whenever suits them.

“The Surpass Community elevates the conversation in the assessment industry to address important issues at the intersection of emerging technology and advancements in assessment... It’s exciting to be part of a vibrant community that is truly improving the assessment experience for everyone.”

Ibidun Layi-Ojo - Assessment Professional

"The Surpass platform is extremely flexible. They have an extensive knowledge base for their end users, and a large number of APIs available. Their approach is that of a trusted collaborator rather than a vendor which I think will be a key success factor to this project."
