Surpass expands its AI suite with Surpass Tutor

Transforming assessment for learning with Community-guided AI solutions

19 March 2025 — Surpass Assessment, a global leader in digital assessment services, announces the launch of Surpass Tutor, an enterprise-grade AI learning platform that transforms assessment questions into personalized learning experiences.

This innovative platform reimagines formative assessment by giving new life to Item Banks of high-quality questions. The platform leverages assessment technology expertize to provide professional and schools-based testing with AI-powered, human-validated exam content.

Learners receive instant, detailed feedback on exam question attempts, with support for multiple response types and learning content underpinned by human-verified marking data. For testing organizations, the platform enables repurposing of assessment content from any subject with exceptional grading accuracy rates that match or exceed human scoring standards.

Carl Cerny, a tutor who has been piloting the platform, gave high praise:

"The immediate feedback from the AI tutor is specific and precisely tailored to the examination mark scheme. The option to adjust the level of support available is brilliant! An extremely powerful tool for self-study with huge benefits on teacher time."

Surpass Tutor is being made available to Surpass Community members as a priority for pilot testing. The results and feedback will be regularly reviewed and evaluated alongside the eight principles defined by the Surpass Copilot Advisory Board (CAB), a collection of leading AI and assessment experts. Once approved, Surpass Tutor will join the Surpass product suite later this year, offering organizations instant, tailored feedback through AI-powered assessment for learning.

A vision for the future

The launch of Surpass Tutor, alongside the recent release of Surpass' built-in assistive AI feature Copilot, reinforces Surpass' leadership in innovative AI solutions.

"We're not just adapting to change, we're shaping it. By engaging with our global community of assessment experts, Surpass is dedicated to addressing the challenges and opportunities of today while setting the standard for tomorrow," said Jim Crawford, VP of Sales at Surpass.

"At the recent 2024 Surpass Conference, 69% of Surpass Community members expressed readiness to engage in pilots with AI solutions from Surpass over the next 12 months, setting the stage for 2025 to become the year of AI adoption for the Surpass Community."
